LIST OF CONTENTS

Volume 27A, No. 1, January 1993

Michael J. Kuby and **Robert Gordon Gray** — 1 The hub network design problem with stopovers and feeders: The case of Federal Express

Robert Cervero and **John Landis** — 13 Assessing the impacts of urban rail transit on local real estate markets using quasi-experimental comparisons

Douglas A. Reece and **Steven A. Shafer** — 23 A computational model of driving for autonomous vehicles

Kant Rao and **Gary Gittings** — 51 The effect of federal matching share for toll facilities on capital investment in the United States

61 Recent Doctoral Dissertations
Air Transportation
Freight and Logistics
Hazardous Materials
Maritime Transportation
Project Management
Public Transportation
Rail Transportation
Traffic Analysis
Traffic Assignment and Trip Distribution
Transportation and Economic Development
Transportation Finance
Transportation/Land Use Interaction
Transportation Networks
Travel Behavior

I Forthcoming Papers

Volume 27A, No. 2, March 1993

James G. Strathman and **Janet R. Hopper** — 93 Empirical analysis of bus transit on-time performance

Asad J. Khattak, **Joseph L. Schofer** and **Frank S. Koppelman** — 101 Commuters' enroute diversion and return decisions: Analysis and implications for advanced traveler information systems

James K. Higginson	113	Modeling shipper costs in physical distribution analysis
Genevieve Giuliano, Keith Hwang and **Martin Wachs**	125	Employee trip reduction in Southern California: First year results
James E. Moore, II	139	Ridership and cost on the Long Beach–Los Angeles Blue Line Train
		Book Reviews
Patrick M. Malone	153	Flink: *The Automobile Ages*
Tommy Gärling	154	Jones: *Developments in Dynamic and Activity-Based Approaches to Travel Analysis*
		International Association for Travel Behaviour; *Travel Behaviour Research: Fifth International Conference on Travel Behaviour*
Gordon J. Fielding	156	Downs: *Stuck in Traffic: Coping with Peak-Hour Traffic Congestion*
Michael G. H. Bell	158	Newell: *Theory of Highway Traffic Signals*
	160	Brief Notes
	I	Forthcoming Papers

Volume 27A, No. 3, May 1993

David L. Greene	163	Transportation and energy: The global environmental challenge
Asif Faiz	167	Automotive emissions in developing countries—Relative implications for global warming, acidification and urban air quality
Mark A. DeLuchi	187	Greenhouse-gas emissions from the use of new fuels for transportation and electricity
W. T. Watterson	193	Linked simulation of land use and transportation systems: Developments and experience in the Puget Sound region
Steven E. Shladover	207	Potential contributions of intelligent vehicle/highway systems (IVHS) to reducing transportation's greenhouse gas production
David L. Greene and **K. G. Duleep**	217	Costs and benefits of automotive fuel economy improvement: A partial analysis

David S. Bunch, Mark Bradley, Thomas F. Golob, Ryuichi Kitamura and **Gareth P. Occhiuzzo** 237 Demand for clean-fuel vehicles in California: A discrete-choice stated preference pilot project

Mark A. DeLuchi and **Joan M. Ogden** 255 Solar-hydrogen fuel-cell vehicles

I Forthcoming Papers

Volume 27A, No. 4, July 1993

Gérard Claisse and **Frantz Rowe** 277 Domestic telephone habits and daily mobility

Ali Modarres 291 Evaluating employer-based transportation demand management programs

Dean W. Hestermann, Joseph F. DiMento, Dru van Hengel and **Brenda Nordenstam** 299 Impacts of a consent decree on "The last urban freeway": Interstate 105 in Los Angeles County

Steven Stern 315 A disaggregate discrete choice model of transportation demand by elderly and disabled people in rural Virginia

Sock-Yong Phang 329 Singapore's motor vehicle policy: Review of recent changes and a suggested alternative

Book Reviews

Martin Wachs 337 Wright: *Fast Wheels, Slow Traffic: Urban Transport Choices*

Jeffrey L. Adler 338 Bovy and Stern: *Route Choice: Wayfinding in Transport Networks*

339 Brief Notes

341 Thanks to Reviewers

I Forthcoming Papers

Volume 27A, No. 5, September 1993

Mark H. Keaton 343 Are there economies of traffic density in the less-than-truckload motor carrier industry? An operations planning analysis

Paul Komor, Samuel F. Baldwin and **Joy Dunkerley** 359 Technologies for improving transportation energy efficiency in the developing world

B. Ashtakala and **A. S. N. Murthy** 373 Sequential models to determine intercity commodity transportation demand

Frank S. Koppelman, Chandra R. Bhat and **Joseph L. Schofer** 383 Market research evaluation of actions to reduce suburban traffic congestion: Commuter travel behavior and response to demand reduction actions

Isaac K. Takyi 395 A multidimensional methodology for evaluating public transportation services

Book Reviews

Gregory L. Thompson 407 Wachs and Crawford: *The Car and the City: The Automobile, the Built Environment, and Daily Urban Life*

Kenneth J. Button 409 Small: *Urban Transportation Economics*

Mary Lynn Tischer 410 Ampt, Richardson, and Meyburg: *Selected Readings in Transport Survey Methodology. Proceedings of the 3rd International Conference on Survey Methods in Transportation, Washington, D.C., January 5–7, 1990.*

Mark Bradley 412 Fowkes and Nash: *Analysing Demand for Rail Travel*

Darold T. Barnum 413 Gray and Hoel: *Public Transportation, 2nd Ed.*

Lester A. Hoel 415 Ogden: *Urban Goods Movement: A Guide to Policy and Planning*

416 Brief Notes

419 Thanks to Reviewers

I Forthcoming Papers

Volume 27A, No. 6, November 1993

Frank Haight iii Editor's Note: Information for Readers

Peter Jones 421 Introduction

Kaivan Munshi 423 Urban passenger travel demand estimation: A household activity approach

Chandra R. Bhat and **Frank S. Koppelman** 433 A conceptual framework of individual activity program generation

Chandra R. Bhat and **Frank S. Koppelman** 447 An endogenous switching simultaneous equation system of employment, income, and car ownership

Henk Meurs 461 A panel data switching regression model of mobility and car ownership

Ram M. Pendyala, Konstadinos G. Goulias, Ryuichi Kitamura and **Elaine Murakami** 477 Development of weights for a choice-based panel survey sample with attrition
